## Total Sales increased 16.9% YoY to 2.2 mn units led by 16.3% YoY growth in 2W Sales

2W sales increased to **1.6 mn units**, PV and CV segments witnessed steady growth.

4W sales rose **16.5% YoY** to **420k units**, and CV sales increased **18.6% YoY** to **89k units**. Meanwhile, 3W sales grew **26.9% YoY** to **97k units**. Overall sales were driven by positive demand traction, supported by tailwinds from the **GST 2.0 rate cut**, which lowered vehicle prices and boosted consumer sentiment.

**Exhibit 1: Total Industry sales (mn units)**

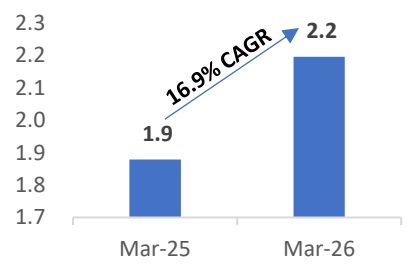

**Exhibit 2: Sales mix (%)**

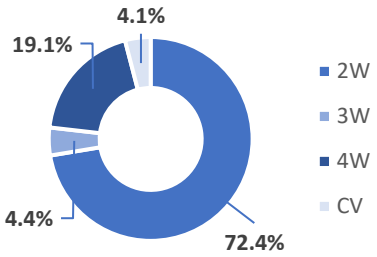

## PV Segment

### Exports increased by 23.5% YoY to 64k units driven by strong global demand for Indian vehicles

Domestic PV volumes rose **15.3% YoY** to **357k units**, supported by strong SUV demand, premiumization trends, and improved urban consumption.

Market share remained **highly concentrated**, with Maruti Suzuki leading at **52.9%**, followed by Hyundai Motor India **(16.4%)**, Tata Motors **(15.9%),** and Mahindra & Mahindra **(14.8%).**

Within **domestic PV sales**, **SUVs** contributed **60.7%**, followed by **hatchbacks** at **33.2%**, while sedans and EVs accounted for **2.5%** and **3.6%**, respectively.

**Exhibit 3- Sales Volume (k units)**

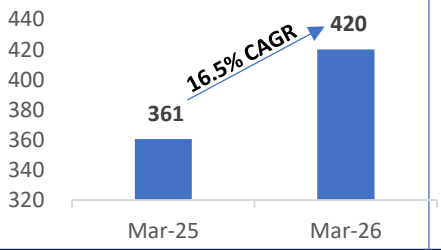

**Exhibit 4- Sales mix (%)**

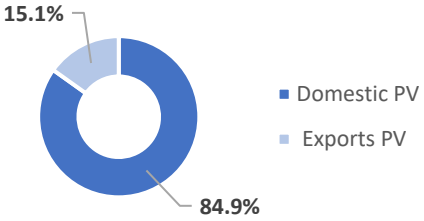

## Maruti Suzuki

### Maruti Suzuki sales increased 16.5% YoY to 222k driven by rising exports

Domestic PV volumes increased **11% YoY** to **175k units** and exports increased **43% YoY** to **47k units**.

Growth was driven by strong demand for core models such as **Dzire** (**37% YoY**) and **Baleno** (**33% YoY**), with **21k** and **16k units** sold, respectively.

**SUV** sales increased **13% YoY** to **83k** units, while **hatchback** sales grew **9% YoY** to **83k** units.

**Exhibit 5: Total sales (k units)**

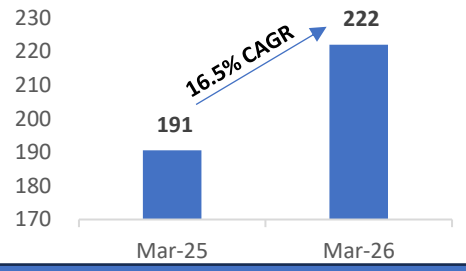

**Exhibit 6: Sales mix (%)**

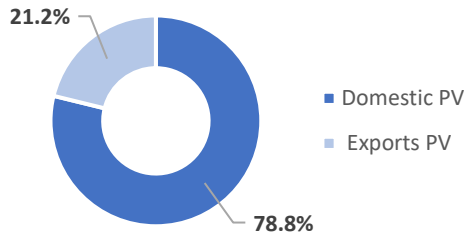

## Tata Motors Passenger Vehicle

**TMPV sales increased 29.1% YoY to 67k units driven by 28.2% YoY increase in domestic sales**

Domestic PV sales increased to **66k units**. Exports tripled from **256 units** to **779 units**, aided by a low base and improving traction in select international markets.

Growth was underpinned by robust performance of key models such as **Punch (18% YoY)** and **Nexon (21% YoY)**, with volumes of **21K** and **20K units**, respectively. This was driven by popularity in the compact SUV segment, and continued demand in both urban and semi-urban markets.

The Growth trajectory was led by **SUVs** and **EVs**, which expanded **31%** and **77% YoY**, respectively, while hatchbacks and sedans declined by **1.5%** and **33% YoY** respectively, reflecting a structural shift in consumer preference towards SUVs.

**Exhibit 7: Total sales (k units)**

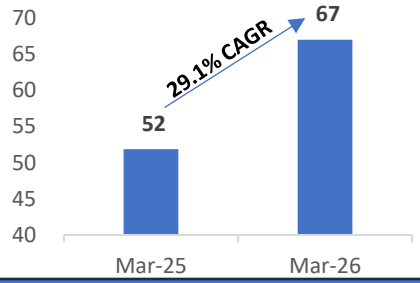

**Exhibit 8: Sales mix (%)**

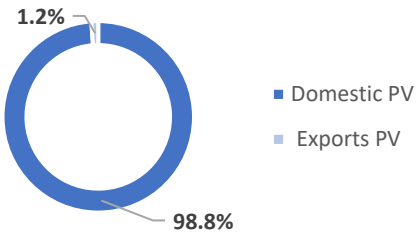

## Mahindra and Mahindra

**M&M sales increased 22.2% YoY to 62k units driven by 25.4% YoY increase in domestic sales**

Domestic PV sales increased to **60k units**. Exports declined **34% YoY** to **2k units**, impacted by weak global demand and a strategic focus on the domestic market.

Growth was supported by strong performance of models such as **XUV 3XO** rising **30% YoY** to **9k units** and Bolero increasing **22% YoY**, to **10k units**.

The expansion was driven by **SUVs** and **EVs**, which grew **27%** and **8% YoY**, to **57k** and **3k units** respectively. This was aided by premiumisation trends, M&M's strong positioning in the SUV segment, and improving EV adoption supported by stable pricing and policy tailwinds.

**Exhibit 9: Total sales (k units)**

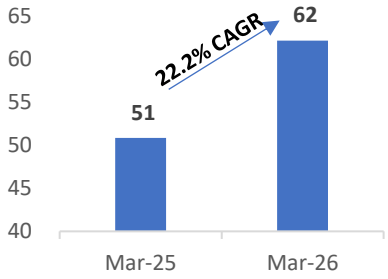

**Exhibit 10: Sales mix (%)**

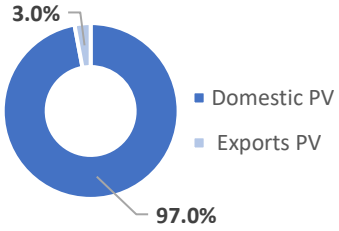

## Hyundai

**Hyundai sales increased 2.5% YoY to 69k units driven by 6.3% YoY increase in domestic sales**

Domestic PV sales increased to **55k units**. Exports **declined** by **10% YoY** to **14K units**, Dragged by weak demand in key overseas markets and global logistical, geopolitical disruptions impacting shipments.

Growth was supported by strong performance of key models such as **Aura 31% YoY to 6.6k units** and **i20 Elite increasing 26% YoY** to **5.6k units.** This was driven by strong demand in the compact sedan and premium hatchback segments along with fleet and replacement demand.

The growth was primarily led by **Sedan** and **Hatchback. Hatchback** grew **25% YoY** to **17k units** while **sedan** grew **12% YoY** to **8k units**. **SUVs** declined **1.2% YoY** to **30k units**, reflecting rising competition from peers and moderation in key models like **Creta** which saw a **1.2% decline** with **18k units** within the portfolio.

**Exhibit 11: Total sales (k units)**

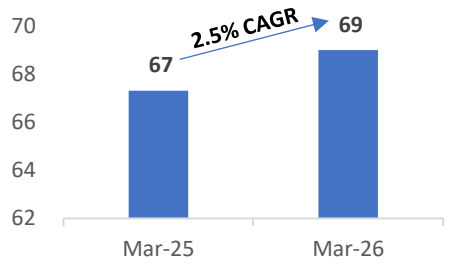

**Exhibit 12: Sales mix (%)**

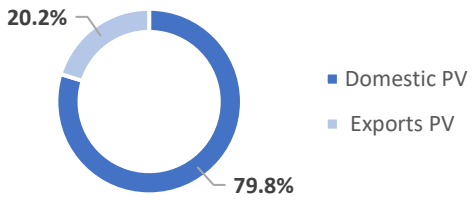

## 2W Segment

**Total 2W sales increased 16.3% YoY to 1.6mn units, with exports rising 19.4% YoY**

Domestic volumes rose **15.5% YoY** to **1,247k units**, supported by strong rural demand recovery, improved disposable income, and a favorable base.

Exports increased to **342k units**, aided by recovery in key international markets and easing supply chain constraints.

**Hero MotoCorp** remained the market leader with a **37.6%** market share and **598k units**, supported by its strong presence in the rural and entry-level motorcycle segment. **TVS Motor** Company followed with a **31.3%** market share and **498k units**, aided by a well-diversified portfolio across scooters and motorcycles and strong EV traction.

**Bajaj Auto** and **Eicher Motors** contributed **23.9%** and **11.2%** market share, with volumes of **381k units** and **112k units** respectively, supported by export momentum and demand in the premium motorcycle segment.

**Exhibit 13: Total sales (k units)**

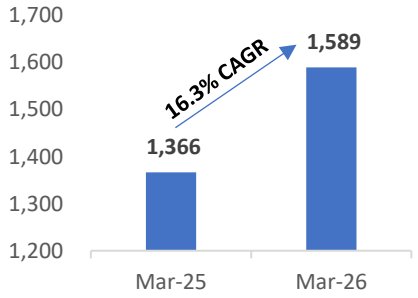

**Exhibit 14: Sales mix (%)**

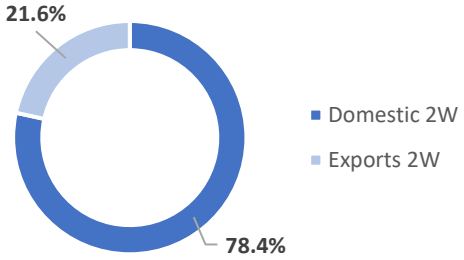

## Hero MotoCorp

**Hero MotoCorp sales increased 8.8% YoY to 598k units driven by 8.3% YoY increase in domestic sales**

Domestic 2W sales increased to **553k units** supported by improved rural cash flows, steady replacement demand, and Hero's strong distribution network in semi-urban and rural markets.

Exports **increased** by **15.6% YoY** to **46K units**, aided by recovery in key export markets and expansion into new geographies.

**Exhibit 15: Total sales (K units)**

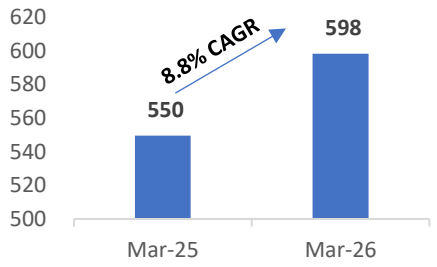

**Exhibit 16: Sales mix (%)**

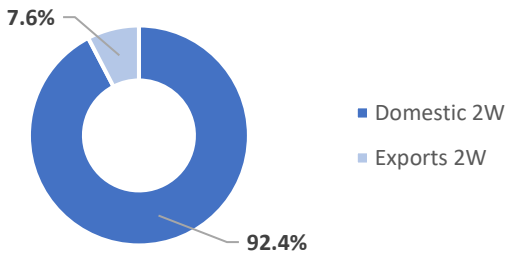

## TVS

**TVS sales increased 24.5% YoY to 498k units, with domestic Sales rising 25.1% YoY**

Domestic sales increased to **372k units**, driven by strong demand for **scooters** such as **Jupiter** and **Ntorq**, sustained traction in **premium motorcycles** (Apache series), and improved rural recovery supported by better financing availability and festive demand spillover.

Exports increased **22.7% YoY** to **125k units**, supported by recovery in key international markets (Africa & Latin America), and continued traction in commuter and entry-level motorcycles.

**Exhibit 17: Total sales (K units)**

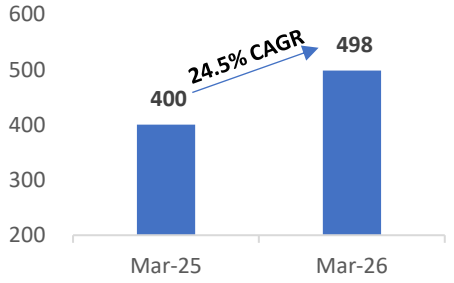

**Exhibit 18: Sales mix (%)**

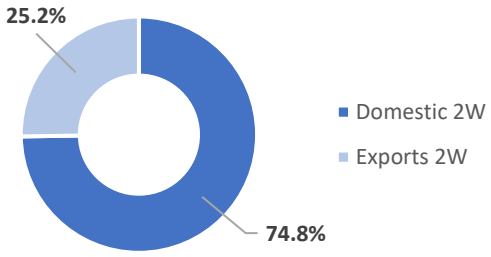

## Bajaj Auto

**Bajaj Auto sales increased 20.5% YoY to 380k units, with Domestic Sales rising 20.3% YoY**

Domestic sales increased to **221k units**, driven by strong demand in **motorcycles** like **Pulsar, Platina** as well as **EV Scooters** like the **Chetak Electrical**. The recovery in the entry-level segment, and steady traction in 3-wheelers supported by urban mobility and last-mile demand, further contributed to overall growth. The company recently relaunched the **Pulsar 180** and is gearing up to revamp all of the Classic Pulsar models later this year.

Exports increased **20.7% YoY** to **160k units**, supported by recovery in key export markets (Africa, LATAM), improved forex stability, and continued demand for commuter motorcycles.

**Exhibit 19: Total sales (K units)**

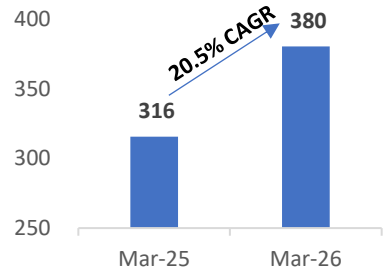

**Exhibit 20: Sales mix (%)**

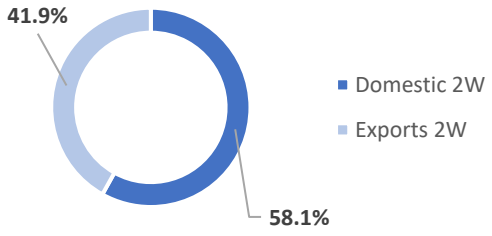

## Eicher Motors

**Eicher Motors sales increased 11.2% YoY to 112k units, with domestic Sales up 14.0% YoY**

Domestic sales increased to **101k units**, driven by strong demand for premium motorcycles under Royal Enfield (Classic, Hunter, Bullet), new launches, and improving urban discretionary demand.

Exports declined by **8.0% YoY** to **12k units**, dragged by weakness in key international markets, macroeconomic headwinds, and inventory normalization in overseas channels.

**Exhibit 21: Total sales (K units)**

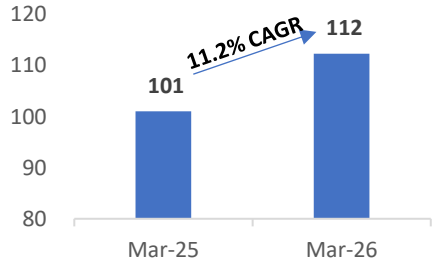

**Exhibit 22: Sales mix (%)**

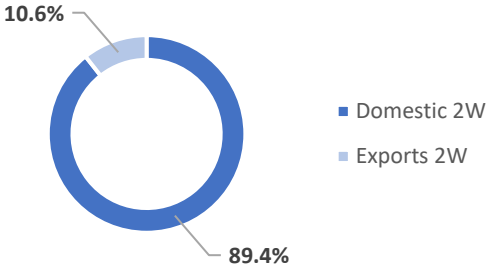

## 3W Segment

**Total 3W sales increased 26.9% YoY, with exports rising 29.7% YoY**

Total 3W sales increased to **97k units**, domestic volumes rising **25.3% YoY** to 62k units, supported by strong recovery in passenger mobility demand, steady last-mile logistics activity, and continued growth in **electric 3W adoption** across urban and semi-urban markets

Exports increased to **35k units**, aided by robust demand from key emerging markets in Africa, Latin America, and South Asia, increasing preference for cost-efficient Indian 3Ws in last-mile transport, and expanding OEM export footprints supported by competitive pricing and improving product acceptance.

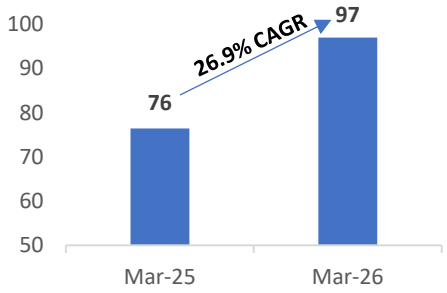

**Exhibit 24: Sales mix (%)**

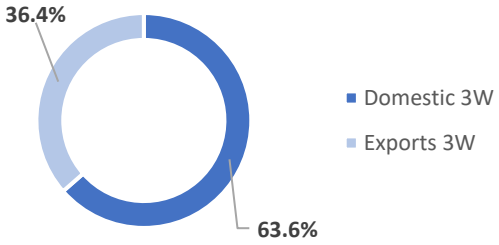

## Bajaj Auto

**Bajaj auto sales grew 20.0% YoY to 65k units driven by domestic sales rising 19.7% YoY**

Domestic 3W sales increased to **45k units**, whereas Exports 3W sales increased **20.6% YoY** to **20k units** primarily driven by strong demand in e-rickshaws in the domestic market.

**Exhibit 25: Total sales (K units)**

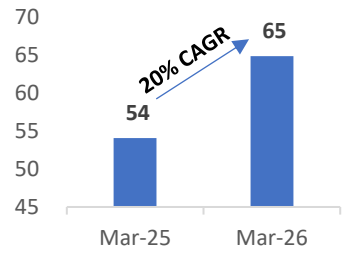

**Exhibit 26: Sales mix (%)**

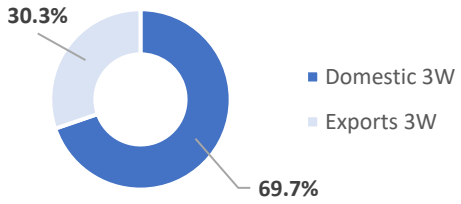

## CV Segment

**Total CV sales increased 18.6% YoY, with exports rising 19.1% YoY**

Total CV sales increased to **89k units**, domestic volumes rising **18.5% YoY** to **85k units**, supported by healthy infrastructure and construction activity, strong freight demand, and replacement cycle-led purchases by fleet operators.

Exports increased to **4.2k units**, aided by gradual recovery in overseas markets, improved order inflows, and stabilization in supply chain conditions.

**Exhibit 27: Total sales (K units)**

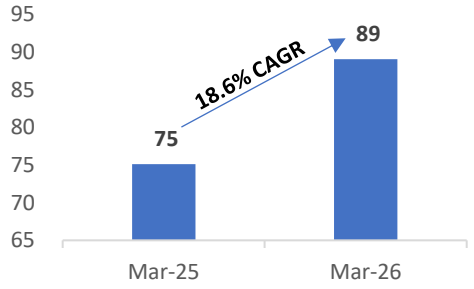

**Exhibit 28: Sales mix (%)**

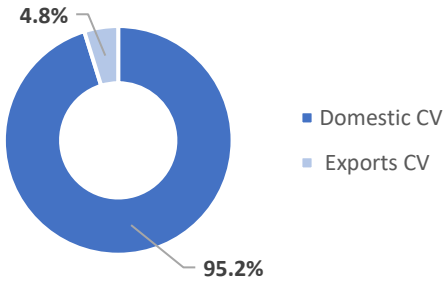

## Tata Motors

**Tata motors sales grew 16.7% YoY to 48k units. Driven by domestic sales rising 17.9% YoY**

Domestic CV sales increased to **46k units**, whereas Exports CV declined **4% YoY** to **2k units** primarily due to weakness in key overseas markets and geopolitical disruptions impacting demand and shipments.
